Index to Volume 15

The American Journal of Human Genetics

ABO blood group and adiposity, 398 and height, 402 and ovarian neoplasms, 380 frequency, Eskimos, 204 frequency, Georgia, 425, 430 maternal-fetal incompatibility, 449 Abortigine Gc serum variant, 368 Abortion, spontaneous, 223, 329, 449 Acatalasia, 408

Adiposis dolorosa, 184 Adiposity, 398 Aebi, U., 133

Albinism with deaf-mutism, 259 Allan, William, Memorial Award, 115 Altitude, neonatal deaths and birth weight,

329 American Indians, Gc serum types, 368,

377 Anoxia and neonatal deaths and birth weight, 329

Apelbaum, Azay, 74 Arachnodactyly, chromosomes, 11

Bearn, Alexander G., 159, 353, 368 Birth weights, 329

Blackwell, Boon-Nam, 126
Blackwell, R. Quentin, 126
Rlumberg, Bayuch S. 420, 421

Blumberg, Baruch S., 420, 429 Books reviewed:

Actions of Radiations on Living Cells, 121

Advances in Rheumatic Fever, 1940-1961, 325 An Introduction to the Cytogenetics of

Polyploids, 221

Approaches to the Genetic Analysis of Mammalian Cells, 324

Birth to Maturity: A Study in Psychological Development, 328

Blood Groups and Transfusions, 326

Blood Groups in Man, 222 Cell Heredity, 118

Chromosomes in Medicine, 221 Clinical Genodermatology, 220

Darwin, Marx, and Wagner: A Symposium, 120

Design and Function at the Threshold of Life: The Viruses, 120

Discussions in Cytogenetics, 324

Epidemiology and Genetics of Mental Deficiency in a Southern Swedish Population, 118

Evolution and Illness, 327

Expanding Goals of Genetics in Psychiatry, 218

Experiments in Genetics with Drosophila, 326

Fundamentals of Psychology, 121

Genetic Notes, 325

Genetics (White), 117 Genetics for the Clinician, 323

Growth at Adolescence, 328

Haemoglobin-Colloquium, 325

Handbook of Physiology, 121

Ideas on Human Evolution: Selected Essays, 1949-1961, 119

International Directory of Radioisotopes, 327

Introduction to Immunochemical Specificity, 116

Introductory Mycology, 328

Ionizing Radiations and Immune Processes, 119

Monozygotic Twins Brought Up Apart and Brought Up Together, 219

Mutations, Second Macy Conference on Genetics, 116

Neurosecretion, 328

New Patterns in Genetics and Development, 323

Osteogenesis Imperfecta in Sweden, 221 Primates: Comparative Anatomy and Taxonomy, 328

Problems of Hereditary Chondrodysplasias, 325

Psychology: A Study of a Science, 121 Quantitative Chemical Techniques of Histo- and Cytochemistry, 120

Recherches sur la Structure et les Fonctions des Acides Desoxyribonucleiques, 119

Report of the United Nations Scientific Committee on the Effects of Atomic Radiation, 327

Studies in Genetics: Research Reports on Drosophila, 120

Studies in Genetics: Selected Papers of H. J. Miller, 221

Textbook of Virology, 120

The Biosynthesis of Proteins, 326
The Genetic Code, 326
The Molecular Basis of Neoplasia, 327
The Origin of Races, 216
The Use of Vital and Health Statistics for Genetic and Radiation Studies, 118
Boyer, Samuel H., 438
Braun, L., 133
Broadbent, T. Ray, 209

Chippewa Gc variant, 368 Cholinesterase, serum, 280 Chown, Bruce, 182, 203, 322, 493 Christmas disease, see PTC deficiency Chromosomes arachnodactyly, 11 enlarged satellites, 11 familial variant, #1, 465 mixed gonadal dysgenesis, 155 secondary constrictions, 24 XX/XY hermaphrodite, 62 Clark, James I., 292 Cleft palate family study and frequency, 209 paternal age effect, 389 Cleve, Hartwig, 353, 368 Consanguinity and gene frequency, 86 Cooper, A. J., 420, 429 Cooper, Herbert L., 465 Counseling, 5 Crow, James F., 310
